

Moldova is the poorest and smallest country from the former Soviet Union and is ground zero in Europe for human trafficking. The goal of Justice and Mercy International's ministry in Moldova is to seek out the country's most vulnerable children, offer them hope, and provide them with the personalized resources, opportunities and Christ-honoring values they need to succeed in life. JMI mission teams help identify the most vulnerable through camp programs that allow us to share the love and hope of Jesus with all the participating children.

On this trip we will do a week-long summer camp. We will have Bible study groups, music, arts and crafts, and recreation. There will also be large group worship. These kids are truly precious and will steal your heart as you pour into their lives.
